THE IMPACT OF COLLABORATION

DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

Alignment of efforts & ambition

Corporate emissions

Commitments & targets

THE IMPACT OF COLLABORATION

In 2022, the SBTi will validate more targets than the previous 6 years combined.

After a year of its foundation, MPP has more than 400 partners across corporate, finance, and policy.

- 1 High-emitting sectors are key in halting climate change.
- 2 Collaboration is critical.
- Alignment on the ambition of science-based targets and the transition strategy is key.
- The time to act is now!
